The law corresponds in all its essential features to the similar statutes prevailing in the various Southern States, requiring the railroads to provide separate accommodations to provide on all trains and at all stations, and imposing penalties for all violations of the law. The leading railroads operating in Oklahoma have made the necessary provisions to comply with the law.

Albany, N. Y., Feb. 4.—The Grand Chapter of Royal Arch Masons began its annual convocation here today with delegates present from all parts of the State. The Grand Chapter has accumulated a large surplus fund in its treasury and as a consequence it is expected the convocation will act favorably on a proposition to reduce the per capita tax of the chapters.

NEW POINT.

Will Penalty Result as the Non-Payment of Tax?

Austin, Feb. 4.—A new question has bobbed up in connection with the payment of gross receipts taxes. Several hundred corporations doing business in the state have failed to pay their tax for the past quarter, and a penalty of 10 per cent is accruing against them. The new point is whether or not they are also liable to a fine of \$1,000 per day for not paying the tax within the specified time. The Waters Pierce Oil company has filed its report for the past quarter, but so far it has failed to pay its tax. The question as to its being subject to a fine of \$1,000 for each day for failure to pay the tax, has been passed up to the attorney general's department. If latter holds that it is subject to the additional fine along with penalties, it will affect every corporation that so far has failed to comply with the law.

General Attorneys Garwood and Terry of the Sunset and Santa Fe respectively, are here to arrange for the dismissal of injunction suits in Federal court against the railroad commission. This is in compliance with the statement made by general attorneys to the commission when the latter dismissed 2 1-2 cent passenger fare hearing. The roads will pay the costs of this litigation. It will cost each of them about \$200, making a total close on to \$3,000.

Entered at the Postoffice in Bryan, Texas, as second class matter.

BY CARNES & WALLACE

BRYAN, TEXAS, FEBRUARY 5, 1908

Not much good oyster weather yet; the ice cream variety largely predominates.

At the present rate of progress Bryan will be well supplied with sidewalk walks in less than a thousand years.

It begins to look like H. Clay Pierce will have to go abroad or come to Texas and face that charge of false swearing.

The democrats in congress are having oceans of fun watching the president prodding the Republicans with the big stick.

They say that in the United States about \$200,000,000 a year goes up in smoke. Yet experts say most conflagrations could be prevented.

It is uncharitable to throw jibes at the poor fellows who forgot to pay their poll tax. Don't be cheery because you're it and they're not in it.

Since Georgia went dry a man in that state died from drinking Jamaica ginger as a beverage. He ought to have known that it is a corker.

The king business in Europe is in a bad way, like the trust business in this country. The "average man" in America is the happiest man on earth.

While there is no real benefit to Texas or to the people of the state in having one of the big battleships named Texas, it will be accepted as an appreciated bouquet.

Governor Hughes of New York is making it hot for the race track gamblers. He says he is in favor of improving the breed of horses but thinks it more important to improve the breed of men.

The man who walks around with a chip on his shoulder, be he big or little, is fooling away his time. The genus bully is so nearly extinct that a specimen nowadays is interesting only as a freak.

A nation is always in danger of revolution when there are large numbers of men willing to work and unable to find employment. Nothing so maddens a man as to hear his children crying for bread.

It is said that President Roosevelt habitually speaks of Senator Culberson as "that detective from Texas." Our Charley is now doing an artistic piece of Sherlock Homesing on the case of Cortelyou and the Panama bond issue.

In a leading editorial the Fort Worth Star uses the words "if Mr. Bryan's hold on the party should be shaken loose." Mr. Bryan has no hold on the Democratic party, but the Democratic party has "a middlin' tight grip" on Mr. Bryan.

West Texas papers are urging the farmers to plant cotton. If any Brazos county farmer increases his cotton acreage with the expectation of a reduced average he will surely find that he has made a mistake. Diversification is the proper thing. It's a sure winner.

The Supreme court of the United States has decided that labor organizations are liable for damages resulting from boycotts against manufacturers doing an interstate business and that the funds of the union against which judgment has been rendered may be attached.

According to Mrs. Natalie Taylor Carlisle, a family of seven members and a cook, making eight persons, at Chappel Hill, Washington county, feasted on one sweet potato for five days. It is to be expected that the heathen on the outside and possibly some in less favored portions of Texas will think Mrs. Carlisle eligible to membership in the Ananias club but people in Central Texas will accept her statement at 100 cents on the dollar.

TYPICAL TEXAS SOILS.

Bulletin 100 of the Texas Experiment Station just issued from the press, gives conclusions reached as the result of analyzing samples of soil from various parts of the state and practical suggestions regarding the treatment of such soils in order to make them more productive. The samples used in the analysis were from Houston, Anderson, Lamar, Travis, Bexar and Hays counties, and represent the kinds of soils most widely distributed in the State. The analyses were made by Dr. G. S. Fraps, State chemist, and any person desiring a copy of the Bulletin can secure it by addressing the Director of the Experiment Station, College Station, Texas.

After the bona fide Ku Klux Klan had accomplished its mission and disbanded irresponsible parties in some localities in the South assumed its pseudo-organization which fell into name and carried on for awhile a disrepute on account of numerous outrages perpetrated. In some of the counties in Tennessee, where the Klan originated and was most active, the people were driven to the necessity of organizing to suppress the lawless of the night riders, the leaders of the law and order movement being presumably the same men who had used the original Klan as an instrument for rescuing the state, county and municipal governments from the carpet-baggers, scalawags and negroes, who had ruled and plundered during reconstruction. The law abiding people of Kentucky may have to resort to similar means to put down the "night riders," who are terrorizing that State.

The fact that a thousand or more bushels of cotton seed of special early maturing variety will be distributed in the sections troubled with boll weevil this season is another evidence that the fight on this little pest has not by any means been abandoned. The seed will be sent out by the agricultural department under congressional frank in small packages to give the farmers a start of a kind of cotton as near immune from weevils' attacks as has yet been found. This not only shows that the fight on the weevil will continue, but that farmers are more awake than ever before to the importance of crop rotation, substitution and diversification as a hedge against this or other drawbacks to agriculture.—Ft. Worth Star.

The scientific farmers sent out by Agricultural and Mechanical colleges to deliver addresses and conduct experiments are no longer regarded as visionary theorists by the horny-handed tiller of the soil, but his friends and practical colleagues in the winning of greater wealth.—Ft. Worth Star.

The Atlanta Georgian says that "a Georgia man laughed so much over a joke that it killed him;" and the paragraphs' union is looking cheery.—Houston Chronicle.

This reminds us that Anacreon, the Greek poet, laughed himself to death at a donkey eating raisins.

Advice Advanced That Matrimony Will Hurt No Yoakum Man.
Austin, Feb. 4.—The insurance department is in receipt of a letter from a gentleman at Yoakum inquiring if a company could be organized for the purpose of paying benefits to its members when they get married. The idea might be a good one, but the department holds that it would have no justification over such a concern. The commissioner holds that any young man in Yoakum would not be loser by getting married, regardless of money benefits.

TORCH APPLIED.

Two Hundred Night Riders Are Responsible For Much Damage.
Salem, Ky., Feb. 4.—Two hundred masked night riders visited Discourge, Ky., early Tuesday morning and applied a torch to Bennett's tobacco warehouse and distillery. Both were completely destroyed. Loss is about \$40,000. The masked riders came from the direction of Kuttawa and Eddyville, Lyon county.

A special commission headed by Rear Admiral Simpson is at Punta Arenas on board the Chacabuco extend a welcome to Chilean ports. The Chilean government placed the coal supply at Punta

NEVER MORE DANGEROUS.

Chicago's Chief of Police Says Anarchists Are Active.

Chicago, Feb. 4.—"Never in the history of Chicago have anarchists and other enemies of law and order been more dangerous than they are at present," declared Chief of Police Shippy. The "police are watching their movements closely. You never know when they are going to break out." Chief Shippy had just finished reading the police report of the meeting of Chicago anarchists at which the assassination of King Carlos and son and that of President McKinley were approvingly referred to. In this connection the chief of police pointedly criticised Municipal Judge Torrison for suggesting that two men arrested here for posting red placards unlawfully advertising an anarchist meeting, be released without penalty.

GOT TWELVE YEARS.

Couple of Men Convicted For Attempting to Kidnap Woman.

New York, Feb. 4.—Francesco Relchico and Commio Volardo were sentenced to twelve years' imprisonment in the Kings county court on charge of attempting to kidnap Mrs. Angela Arena at the instigation of a former suitor, who now lives in California. The men threatened Mrs. Arena and announced to her they would take her by force to her former suitor unless she consented to go peacefully. The two men were arrested after the police had overheard the threats. They were heavily armed and attempted to resist.

THREE SENTENCED.

Ice Men Get Six Months in Jail and Pay Prosecution Costs.

Toledo, O., Feb. 4.—Roland Beard and Compton Lemman of the Hygia Ice company and Joseph Miller, manager of the Toledo Ice and Coal company, were sentenced to six months in the county jail and to pay the costs of the prosecution by Judge Kinkaid for conspiracy in restraint of trade. These men were found guilty last July and at the time Judge Kinkaid sentenced each of them to six months in the workhouse and fined them \$2,500. The case was appealed and a few days ago the supreme court handed down a decision declaring the convicted men be sent to jail, but not to the workhouse.

Weak Kidneys

Weak Kidneys, surely point to weak kidney nerves. The kidneys, like the heart, and the stomach, find their weakness, not in the organ itself, but in the nerves that control and guide and strengthen them. Dr. Shoop's Restorative is a medicine specifically prepared to reach these controlling nerves. To doctor the kidneys alone, is futile. It is a waste of time, and of money as well.

If your back aches or is weak, if the urine scalds, or is dark and strong, if you have symptoms of Bright's or other distressing or dangerous kidney disease, try Dr. Shoop's Restorative a month—Tablets or Liquid—and see what it can and will do for you. Druggist recommend and sell.

TO PRESENT SOCIETY DRAMA.

"Barrington Hall" Will be Presented Thursday Night, Feb. 13, Under Auspices of Knights of Pythias.

At a meeting of Brazos Lodge No. 64, Knights of Pythias, held last night arrangements were completed for what promises to be an unusually meritorious amateur dramatic performance under the auspices of the lodge at the opera house in this city on Thursday night, Feb. 13. The play, "Barrington Hall," a splendid society drama, will be given under the direction of Mr. M. S. Blackburn of San Antonio, an actor of note who has retired from professional life, but who for love of his art, frequently engages in directing the presentation of plays by amateurs. Mr. Blackburn, who is here looking after his part is a Kentuckian and nephew of Senator J. C. C. Blackburn of that State. He has played leading parts throughout the country, notably that "The Imp," with Maxine Elliott in "When We Were Twenty-One."

Bryan is not lacking in superior histrionic talent, as has been abundantly attested by successes in this line in the past, and the Eagle looks forward to this play as a genuine treat.

The cast of characters has been announced as follows:

PAIN

Pain in the head—pain anywhere, has its cause. Pain is congestion, pain is blood pressure—nothing else usually. At least, so says Dr. Shoop, and to prove it he has created a little pink tablet. That tablet—called Dr. Shoop's Headache Tablets—coaxes blood pressure away from pain centers. Its effect is charming, pleasingly delightful. Gently, though safely, it surely equalizes the blood circulation.
If you have a headache, it's blood pressure. If it's painful periods with women, same cause. If you are sleepless, restless, nervous, it's blood congestion—blood pressure. That surely is a certainty, for Dr. Shoop's Headache Tablets stop it in 20 minutes, and the tablets simply distribute the unnatural blood pressure.
Bruise your finger, and doesn't it get red, and swell, and pain you? Of course it does. It's congestion, blood pressure. You'll find it where pain is—always. It's simply Common Sense.
We sell at 25 cents, and cheerfully recommend

Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific Nerve sickness—nothing else.
It was this fact that first correctly led Dr. Shoop in the creation of that now very popular Stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that success and favor to Dr. Shoop and his Restorative. Without that original and highly vital principle, no such lasting accomplishments were ever to be had.
For stomach distress, bloating, biliousness, bad breath and sallow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend

To the Sheriff or any Constable of Brazos County—Greeting:

You are hereby commanded to summon Fannie Taylor by making publication of this Citation one in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper published in the 20th Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest district to said 20th Judicial District, to appear at the next regular term of the District Court of Brazos County, to be held at the Court House thereof, in Bryan, on the 1st Monday in March, A. D. 1908, the same being the 2nd day of March, A. D. 1908, then and there to answer a petition filed in said Court on the 1st day of February, A. D. 1908, in a suit, numbered on the docket of said Court, Number 5,184, wherein S. H. Dunlap and W. B. Johnson, as surviving partners of the firm of S. H. Dunlap & Co., are Plaintiffs, and Fannie Taylor and T. R. Batte are defendants; and the nature of plaintiffs' demand is as follows:

Suit on two promissory notes executed by said Fannie Taylor, one of said notes being for the sum of One

Hundred and Fifty Dollars, and the other of said notes being for the sum of One Hundred and Fourteen Dollars, said notes dated June 4th, 1907, and executed by said Fannie Taylor, payable to the order of S. Plaintiffs pray for citation, for judgment, for their debt, principal, interest and attorney's fees, for foreclosure of their said lien, for all costs of suit and for general and equitable relief.

Herein Fail Not, but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

COMPARED TO ISAIAH.

Chicago Clergyman Likens President to Prophet.

ALSO JOHN THE BAPTIST.

In First Instance He Cries Out Sins of the Country; Secondly, Is Precursor of New and Purer Life of the Individual, Nation and World.

Chicago, Feb. 4.—Rev. Amzi C. Dixon, pastor of Moody church, one of the largest congregations in Chicago, in an interview compared President Roosevelt to the prophet Isaiah in crying out the nation's sins. He said Mr. Roosevelt is the first of all the president to apply uninterruptedly Christian principles to everyday life and to the enforcement of law.

At a prayer meeting in the Great Northern theater Dr. Dixon declared before an audience of 1,000 people that Mr. Roosevelt's latest message to congress was one of the greatest messages ever written.

In an interview later, Dr. Dixon followed his reference to Isaiah by likening the president to John the Baptist as the precursor of a new and purer life for the individual, the nation and the world.

FRIGHTFUL FRENZY.

New Brunswick Mother Dashes Out Brains of Her Little Child.

Moncton, N. B., Feb. 4.—In insane frenzy Mrs. Thomas Fouchette snatched her two-year-old child from bed early Tuesday, carried it outdoors and dashed its brains out on the icy ground. Rushing back into the house she picked up another of her children and started out with it, but was discovered and restrained before she reached the door. The woman at one time was an inmate of an insane asylum, but was supposed to have recovered. Besides the child she killed she has seven other children.

HORSE RACING.

This Is to Be a Feature of the Cuba Winter Festival Season.

New York, Feb. 4.—Horse racing is to be a feature of the winter festival season in Cuba, according to advices received by the racing interests here from Edward W. Dennison, secretary of the Cuban festival committee. It has been decided, advices say to inaugurate the sport on the new track at Buena Vista, near Havana, on March 13, at a meeting to be managed by the Cuban racing association, which with the festival committee's cooperation, has been able to offer \$20,000 in purses. If the meeting is successful, it is said, a longer season with earlier beginning will be held next winter.

PART OF PLOT.

Postal Authorities of Opinion Important Arrest Is Made.

El Paso, Feb. 4.—By the arrest of Milo Gjonovich, a native of Montenegro, at Globe, Ariz., the postal authorities believe they have discovered part of a plot against the reigning head of Prince Nicholas.

Gjonovich was arrested for taking from the mails a letter addressed to Bojo Pock, another Montenegroan, and his defense is that he was working in the interest of his government. Several relatives of Pock have been arrested in Montenegro lately and it is believed that Gjonovich brought about the arrests. Gjonovich has been working at Globe as a miner, but is well educated.

Two Horse Tales.

An Albanian who had been in an eastern state while freshets were in full swing told the following about a horse which had been attached to a footbridge crossing a brook to keep the structure from going adrift. The flood finally swept horse and bridge down stream. Later the bridge was discovered lodged against the bank, with the horse sitting quietly on the former.

A bystander who had listened intently to this tale remarked quietly: "I see suthin' similiar onet."

"Indeed? What was it?" asked the story teller.

"Ye see," was the reply, "arter the hoss I see was took down stream no-buddy ever 'spected to see him alive agin. But he was a pow'ful sort o' brute, an' 'bout a hour afterward we see him a-comin' up stream a-pullin' the blame old bridge arter him!"—Albany Journal.

A CLOCK IN A BOTTLE.

The Way This Marvel of Mechanism Was Constructed.

A German clockmaker living in the little village of Gommer, near Magdeburg, built a clock in a bottle. The maker, H. Rosin, secured a strong movement with a cylinder escapement measuring forty-five millimeters and began by sawing the plate into halves. The opening in the neck of the bottle measures fifteen millimeters, and in order to get these halves into the bottle he cut another segment off each of the halves of the plate. He built a sort of tripod as a resting place for the movement. This tripod was assembled after he had introduced its parts into the bottle separately. The tripod is so constructed that it cannot turn when the movement is being wound. The four pieces of the plate were fastened side by side by means of screws to the platform attached to the tripod, a long screwdriver and other tools especially constructed for the purpose having been used for this operation. When the plate was put together, the clockmaker proceeded to put all the parts of the movement in their original places with the motion wheels for the hands. A ring of white metal was placed around the neck of the bottle, and upon this ring was soldered a round plate, thus closing the opening. On this cover were fastened in an inclined position the arms which serve as a support for the dial.

The dial is made of a ground glass plate, which has a diameter of twenty centimeters. The black numbers on the dial are cut skeleton fashion and cemented to the glass. At night one can tell the time by placing a light behind the dial.—Technical World.

THE HUMAN TONGUE.

Eloquent Even When It Does Not Articulate a Word.

It is never necessary for the tongue to talk in order to tell that you are ill or the nature of your illness. The tongue of the dumb is quite as eloquent when viewed by an experienced physician as the tongue of the most talkative person.

It is a wonderful organ and should be studied by all parents, not only on their own account, but on account of their offspring. It aids in mastication of food, in drinking, in sucking, in articulation, and contains in its mucous membrane the peripheral organs of taste. There are doctors who will spend half an hour feeling of your pulse and listening to your heart beats. There are others who command, "Stick out your tongue." One glance at your tongue will to them tell the tale.

Tremulousness of the tongue when it is protruded is a positive sign of various nervous diseases. But by far the commonest cause of this tremulousness is an excessive indulgence in alcohol. There is an old rule about looking into a man's eye to tell if he be a habitual lusher. It often fails. Drink in some men excites the lacrimal glands, causing the eye to appear watery. But all of us know men who have watery eyes, yet never touch liquor. But the best and final test is the tongue. It is the only sign that cannot be concealed. If a man seeking employment swears on a stack of Bibles that he does not drink, make him stick out his tongue. If it trembles he is a liar.—New York Press.

Combs Made of Old Shoes.

A mountain of old boots and shoes, indescribably ugly, indescribably filthy, lay in the factory yard.

"We'll make combs out of them," said the chemist, "combs that will pass through the perfumed and lustrous locks of the most beautiful girls. Seems strange, doesn't it?"

"Very."

"Yet it's a fact. That is what becomes of all the world's old shoes. They are turned into combs. The leather is first cut into small pieces and immersed two days in a chloride of sulphur bath; then it is washed, dried and ground to powder; then it is mixed with glue or gum and pressed into comb molds.

"It makes good enough combs, but I prefer the rubber ones myself."—Exchange.

The Overcoat.

Probably in no other department sartorial is there exhibited so much indifference to hygienic considerations as in the overcoat. The greatest fallacy of all perhaps in regard to the choice of an overcoat is that the terms "weight" and "warmth" are synonymous. As a matter of fact, they are nearly always diametrically opposed. Moreover, the heavy overcoat is a tax on the resources of the organism and destroys the economy which a good insulating cloth is intended to secure.—London Lancet.

What a Woman Says.

Singleton—I want to ask you a question, old man. Wedderly—Come on with it, Singleton—Does a woman always mean what she says? Wedderly—During courtship she doesn't, but after marriage you bet she does.—Chicago News.

Sounds Possible, but Not Likely. "I've thought of a novel effect for my new melodrama."

"What is it?" "The villain lights a cigar during the snowstorm, thus setting the snowstorm afire."—Washington Herald.

Heavy Work.

Mr. Younghub—Did you bake this bread, darling? Mrs. Younghub—Yes, dear. Mr. Younghub—Well, please don't do anything like that again. You are not strong enough for such heavy work.

Free tests are now being supplied by mail to all Catarrh sufferers. There is no expense—no obligation whatever. Dr. Shoop is combining Oil of Eucalyptus, Thymol, Menthol, Oil of Wintergreen, etc., and is incorporating these ingredients into a pure, snow-white cream-like Imported Petrolatum. This Creation—Dr. Shoop's Catarrh Remedy—gives immediate and lasting relief to catarrh of the nose and throat. That all may first test it free, these trial boxes are being mailed without charge, simply to encourage these tests and thus fully demonstrate, beyond doubt, the value of this combination.
